REPORT OF THE COMMITTEE

OF THE

MELBOURNE ATHENÆUM

FOR THE YEAR 1876.

1. The Committee of the Melbourne Athenæum have much pleasure in presenting the subscribers with the Report of the transactions of the past twelve months.

2. There is every cause for satisfaction as regards the prospects of the Institution, which seems to have fully entered upon a career of usefulness and prosperity such as its warmest well-wishers could desire.

3. The revenue shows a still further increase over that reported for 1875—the receipts for 1876 amounting to £2846 13s. 4d. The bank overdraft shown in last Balance-sheet has been liquidated, and, notwithstanding the unlooked for extra expenditure referred to in Clause 17 of this Report, the funds in hand amount to £375 19s. 2d., more than sufficient to meet all outstanding current liabilities.

4. The number of members on the roll on 31st December, 1876, was 1601, composed of 1460 yearly and half-yearly subscribers, 28 quarterly subscribers, 99 life members, and 14 honorary members. The subscriptions for the year amount to £1492 3s., as against £1241 5s. in 1875, or an increase of no less than £250 18s. New members to the number of 567 joined during 1876.

5. The revision of the Library has received considerable attention. A number of mutilated and surplus books have been withdrawn, and their places filled by fresh copies of standard works. A contract has been entered into for a

direct supply of the latest current literature by each mail steamer, the first shipment being shortly expected.

6. The amount expended on the Library and Reading Room, inclusive of outstanding liabilities in those departments, is £816 10s. 2d. The volumes added number 980; and several extra copies of leading magazines and newspapers have been subscribed for. There are now upwards of 200 newspapers and 150 magazines supplied regularly.

7. A new Catalogue of the Library has been prepared and is now ready. It is arranged upon the principle of classification followed in the Public Library, and founded upon that of the British Museum. This alteration, it is believed, will prove very acceptable to reading members, as it affords them increased facilities for speedy reference to the works of well-known authors. Special attention is directed to the new Juvenile Department, containing works suited to the tastes of junior subscribers.

8. The attendance both in the Reading Room and Library has been very large. The bound volumes issued during the year amount to 43,115, and of magazines no less than 10,500 monthly parts were taken out.

9. The ventilation of the Reading Room has been improved upon what is known as the Tobin system, and the alteration appears to have given satisfaction.

10. The classes have been moderately well attended. They comprise the following—French, German, Italian, Phonography, Singing, the subjects for the Civil Service and Matriculation Examinations, &c.

11. The large Hall has fully maintained its popularity, and has been in constant demand. It returned a revenue of £759 12s. 1d. for 1876. The small Lecture Hall has also been frequently occupied, and has yielded £199 4s. The rooms let for classes, meetings, &c., show a rental of £59 5s. 6d.

12. Seeing that the funds in hand exceed all outstanding current liabilities, and that the revenue continues in a most satisfactory condition, the Committee beg to point out to the

members that the time has fairly arrived when the decoration of the large Hall and approaches should be proceeded with. During the past three years the Hall has returned an income considerably in excess of working expenses and interest on cost of erection, and it has become imperative that such decoration should be at once proceeded with.

13. The four offices in front have been let regularly. The revenue from this source amounts to £247 5s.

14. At a Special General Meeting of members, held 24th August, 1876, revised Rules of the Institution were submitted, and the majority were confirmed. The principal change effected was the alteration in the rate of subscription to 21s. annually and 12s. 6d. half-yearly. A quarterly subscription of 7s. 6d. was also authorised. The beneficial effect of this slight advance in the terms of subscription has already been felt in a greatly increased proportion of annual as compared with half-yearly subscriptions; while the extra shillings and half-crowns which fall so lightly on individuals make in the aggregate a useful addition to the general revenue of the Institution. The quarterly subscriptions are, as yet, very few.

15. During the year the question of improved accommodation was taken into consideration, and a Special General Meeting of members was held on 13th September, 1876, when a proposition was submitted asking for authority to borrow on mortgage the additional sum of £6000, to be expended in re-building the front of the Institution. The meeting decided that it would be unadvisable to contract the proposed loan until after the appointment of officers at the next Annual Meeting. In mentioning this the Committee take the opportunity of recording their opinion that improved accommodation for the members generally is a subject requiring immediate attention. With a constantly increasing roll of subscribers the necessity for increased accommodation becomes daily more apparent, and it is to be hoped that during the ensuing year some means of meeting this want will be devised and carried into operation.

16. After the meeting at which the Rules of the Institution were revised, the Committee were requested to open the Reading Room on Sundays. The Committee ordered a ballot to ascertain the wishes of the Subscribers on the subject. The ballot was held for seven days, from 12th to 19th September, 1876, inclusive. The result was as follows:—In favour of keeping the Reading Room closed, 534; in favour of opening it, 492. Majority in favour of keeping closed, 42.

17. In September last, the western wall of the Athenæum building was reported by Messrs. Smith and Johnson, architects to the Institution, to be in jeopardy, owing to the excavations in connexion with the Victoria Club. The Committee at once obtained an injunction restraining the contractor from further endangering the buildings; and subsequently, after due deliberation, a compromise was effected with the lessees of the Club, each side paying their own law expenses, and one-half the cost of the necessary works.

THE
MELBOURNE ATHENÆUM

LIBRARY & READING ROOMS,

COLLINS STREET EAST,

Immediately above the Town Hall, and opposite the "Argus" Office.

IN the principal Reading Room will be found Newspapers from all parts of Victoria and the neighbouring colonies; the leading London and Provincial Papers are laid on the tables immediately on the arrival of the English Mail Steamer.

The supply of Magazines and Periodicals—scientific, artistic, literary, and amusing—is most complete, and includes every publication of note, either Home or Colonial. (*See lists on inner pages of this cover.*) Of the more popular, two or more copies are supplied; these may be borrowed by members.

There is a separate Reading Room for Ladies, supplied with suitable Newspapers and Periodicals. Subscription per annum, Ten Shillings.

The Library is divided into two Departments—the Circulating Library and a Library of Reference. The former contains between 15,000 and 16,000 volumes, which are lent to members and their families. New works are being constantly added. To many the Library of Reference will be found of value, as it contains files of Home and Colonial Newspapers for thirty years back; also such works of Reference as Parliamentary Proceedings, Gazettes, Encyclopædias, Men of the Time, Directories, the best Etymological and Scientific Dictionaries, &c., &c.

The Reading Room is open daily from 8 a.m. to 10 p.m., Sundays and Public Holidays excepted.

The Library is open from 8.30 a.m. to 9 p.m.

On Saturdays the Library is closed at 2 p.m.

Classes are held during the week, at convenient times, for instruction in French, German, Italian, Singing, Phonography, the subjects for the Civil Service and Matriculation Examinations, &c., to which members are admitted at a reduced scale of fees.

The Subscription to the Institution, entitling a member to the whole of these advantages, is £1 1s. per annum, 12s. 6d. half-yearly, or 7s. 6d. quarterly; Life Membership, Ten Guineas. No Entrance Fee is charged. Members can join at any period of the year.

Any further information that may be desired will be gladly rendered on application, at the Institution, to

GARNET WALCH,
Secretary.
